Diwali Sales Pulse 2022–2025

What Lights Up Festive Revenue

Realized Revenue	Realized Orders	Customers	Lost Revenue %
63.80M	33,423	8,330	15.90%

Executive Overview

How big was Diwali, and how healthy is it?

TAKEAWAY

2025 revenue fell 2%, the first dip, and 15.9% of sales leak to cancellations and returns.

Open Page →

Diwali Countdown

When does the rush really build and peak?

TAKEAWAY

Sales run flat all season. Peak Week lifts only 2 to 12% (none in 2022).

Open Page →

Products and Campaigns

What sells, and which campaigns pay off?

TAKEAWAY

Premium is 63% of revenue at a 32% margin; discounts above 20% push margin under 28%.

Open Page →

Customers and Regions

Who buys, and from where?

TAKEAWAY

North drives 40% of revenue. All five channels sell almost equally.

Open Page →

Leakage and Operations

Where does revenue slip, and can we fix it?

TAKEAWAY

Leakage is about 16% everywhere, so the fix is upstream, not logistics.

Quick Look

Pick any metric and any dimension to explore the data: Revenue, Orders, Profit, AOV and Margin by Category, Product, City, State or Customer Segment.

How to Read This Dashboard

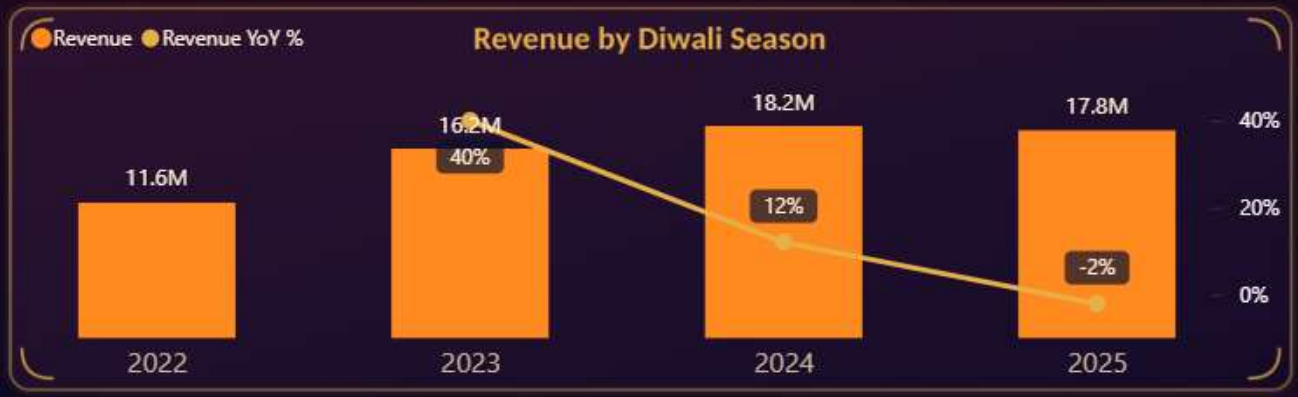

- Realized Revenue = Delivered + In Transit orders. Lost Revenue = Cancelled + Returned orders (the festive leakage).
- Data: 4 Diwali seasons (2022 to 2025), 39,882 order lines and 8,428 customers, after removing 118 duplicate rows.
- Use the Year filter on each page, hover any chart for a quick summary, and right-click a category on Products to open Product Detail.
- Built in Power BI for the DataCliq Skills Wali Diwali Data Analysis Challenge 2026.
